Tribal Workers’ Compensation

AMERIND Risk’s Tribal Workers’ Compensation plan is the tribal alternative to state workers’ compensation. Workers’ Compensation is a state law, which Tribes are exempt. Our Tribal insurance affords the individual Tribe the ability to take control of their Tribal Workers’ Compensation while maintaining Tribal sovereignty. We understand the historical and cultural differences among the Tribes we protect and serve. We are interested in your approach to covering employee injuries and how you would like your insurance plan positioned.

Coverage/Flexibility:
Our coverage is designed for Tribal Businesses, Governments and Housing located within Indian Country. Not unlike the state mandated workers’ compensation, we provide benefits for the following:

- Medical Cost
- Loss of Wages
- Death Benefit
- Disability Benefits

The only 100% Tribally owned and operated insurance provider committed to Indian Country. Over 400 Tribes united and pooled their resources to create AMERIND Risk to keep money within Indian Country. AMERIND Risk provides property, liability and workers’ compensation insurance for Tribes, Tribal governments, businesses and individual coverage.
