

Protecting Our People's Property

AMERIND knows how important your home is to you and your family. We offer peace of mind and protection against financial loss at a reasonable price!

Disaster can strike at any time, no matter how careful people may be.

- According to the NFPA, an average of 361,500 house fires occur each year.
- Over the past five years, fires caused \$48 million in damages to tribal housing and property insured by AMERIND.
- Wildland fires are especially common in the remote and wooded areas of Indian Country.
- Homes in Indian Country often burn fast because reservations may lack fire departments, or they may be far away.

Homeowners insurance is an affordable way to protect your home and belongings.

- Some policies will cover your home at replacement cost value and can also include valuable items such as ceremonial regalia, pottery, jewelry, or guns.
- Insurance helps you avoid potentially devastating financial loss in a cost-effective way.
- The annual cost of an insurance policy for your home is comparable to the price of monthly internet service or an average monthly cost of two fast food meals for your family (approximately \$70 monthly).

AMERIND Protects Tribal Families, Their Homes and the Heart of Indian Country

AMERIND understands the unique needs of our Tribal homeowners and renters living in Indian Country. We offer flexible and culturally sensitive coverage.
